Maximum Marks	4 Marks

AI based localization and classification of skin disease erythema

Skin diseases are conditions that affect your skin. These diseases may cause rashes, inflammation, itchiness or other skin changes. Some skin conditions may be genetic, while lifestyle factors may cause others. Skin disease treatment may include medications, creams or ointments, or lifestyle changes.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Idea Listing and Grouping

Step-3: Idea Prioritization
